

This book has been prepared to make a positive contribution to the solution IWWG of a deficiency common to thousands of communities throughout the world – the need for proper management of the solid wastes generated by the people living in them. The evolution from open dumpsites to well managed treatment facilities and land disposal sites observed in many industrialized countries has taken approximately 50 to 80 years and still continues to evolve. This evolution also is gradually happening in developing countries, where knowledge and experiences should be transferred, applying the most appropriate technologies and taking into account limited economic resources.

CISA Publisher, 430 pages, ISBN 978-88-6265-000-7, 80 €

Luis F. Diaz

President of CalRecovery, Inc. Dr Diaz has more than 30 years of experience in the waste management industry. He has managed, as well as participated in, solid waste management projects for public agencies in the United States, as well as for different agencies of the United Nations in particular the World Health Organization and for international lending institutions. He has conducted training courses on various aspects of waste management in Europe, Asia, North America, South America and the Caribbean. Dr. Diaz is the Editor in-Chief of Waste Management.

Linda L. Eggerth

Senior Vice President of CalRecovery, Inc. Ms. Eggerth has been involved in the field of waste management for over 25 years. She has accumulated substantial expertise in strategic analyses, master planning, financial analysis, management of procurement processes, marketing of recyclable materials, and providing public outreach. Ms. Eggerth has worked in a number of developing countries in Asia and in Latin America and the Caribbean. Ms. Eggerth is the Managing Editor of Waste Management.

George M. Savage

Executive Vice President of CalRecovery, Inc. In more than 30 years of experience in various aspects of solid waste management, he has conducted a considerable amount of basic and applied research in the area of resource recovery from solid waste and has developed an international reputation in the area of waste processing technologies. Mr. Savage has taken part in various projects dealing waste management in several developing countries in Latin America, the Caribbean and in the South Pacific.

TABLE OF CONTENTS

Introduction

The Management of Solid Wastes in Economically Developing Countries – Major Needs

L.F. Diaz, G.M. Savage and L.L. Eggerth

State of the art and perspectives

Wastes Management and Recovery in the Developing Countries

C. Collivignarelli, S. Sorlini, S. Cavallari and M. Vaccai

Biotechnological Processes for Solving Waste Management

Problems in Economically Less Developed Countries

K. Fricke, H. Santen and W. Bidlingmaier

Organic Solid Waste Management in a Framework of Millennium

Development Goals and Clean Development Mechanism

C. Zurbrugg, S. Rothenberger, Y. Vögeli and S. Diener

Regional and national strategies

A Comparison of Waste Management in Peru and Some Latin-

American Countries: An Overview of Major Problems,

Characteristics and Real Needs in the Region

P. Gamarra and S. Salhofer

New Forms of International Cooperation in Chile: Successful

Improvement of Hazardous Waste Management due to an

Innovative Private-Public Project Management Structure

E. Hüttner and A. Zurita

Urban Waste Management in Cameroon: A New Policy

Perspective?

E. Manga

Solid Waste Management in Egypt: Current Situation and Future

Prospects

H.O. Sherif

Voluntary Agreements as a Tool in the Management of Industrial

Solid Waste in Morocco

P. Pluschke, M. Chalabi, A. Ajir and H. Chouaouta

Role of Private Sector

Private Sector Participation in Municipal Solid Waste

Management in Developing and Low Income Countries –

A Case Study of Ethiopia

O. Esan and M. Wenborn

Experiences of Private Sector Participation in Solid Waste

Management in Low- and Middle-Income Countries

A. Coad

The Establishment of Public/Private Partnerships to Form

Sustainable Businesses in Waste Collection

C. Hamman and J. Houghton

Informal Sector Activities – Obstacles and Examples for its

Integration in Municipal Solid Waste Management

S. Spies, A.L. Florisbela dos Santos and G. Wehenpohl

Sustainable waste management

Sustainability: quo vadis?

P. Novella

Gujrat (Pakistan) Sanitation Programme

A.B. Farouque

Approaches to Reach Sustainability in Solid Waste Management

in the Greater Maputo Area, Mozambique

G. Hunger and J. Stretz

Sustainability and Recycling in Poor Communities: A Case Study

in the Eastern Cape, South Africa

J. Blight and L. Mussane

Capacity Building and Technology Transfer

Implementation of Environmental Capacity Building Processes in South Africa

P. Wagner, W. Bidlingmaier and T. McKay

Integrated SWM Capacity Building for Maghreb Countries

A. Belherazem, D.C. Wilson and J. Friaa

Building Local Municipal Capacity for Strategic Waste Management

Decision-Making in Developing Countries

A. Read, D. Wilson and J. Olley

Training and Building Awareness: National Network of

Environmental Promoters for Solid Waste Management in Mexico

G. Wehenpohl

Institutional Aspects

The Role of Formal and Informal Sectors in SWM in DC's

P. Suchada, J. Tränkler, K. Cholada and W. Schöll

Institutional Approach for the Establishment of Intermunicipal

Associations for the Operation of New SWM Systems

U. Cusnick, B. Schenk, P. Pisani and E. Hüttner

Institutional Structure of Solid Waste Management in DC's

G. Kocasoy

Composting

Decentralised Composting of Urban Waste in the Town of Rufisque

(Senegal): Study of the Agronomic Quality of Compost Produced

M.A. Seck, R. Badiane and C. Lô

Solid Waste Management in Cuba under Special Consideration of

Composting

Y. Aguilera-Corrales, I. Körner and I. Saborit-Sánchez

Evaluation of Different MSW Composting Systems in Sri Lanka

B.F.A. Basnayake and K.M. Ekanayake

Low-Tech Options for Chicken Manure Treatment and Application

Possibilities in Agriculture

H. Roeper, S. Khan, I. Körner and R. Stegmann

Pre-treatment before landfilling

Mechanical-Biological Potential Applications in DC's

E. Hüttner and F. Kebekus

Mechanical Biological Pretreatment of Residual Waste in Brazil

K. Münnich, C.F. Mahler and D. Maak

Mechanical Biological Pretreatment in South-East Asia Theoretical

and Practical Approach

J. Tränkler, Qin Xiaoning and C. Visvanathan

Pre-Treatment Prior to Final Disposal - A Case Study for Thailand

R.M.R.P. Ranaweera and J. Tränkler

A Comparative Study of Aerobic Waste Treatment in South Africa

C. Trois, M. Griffith, N. Mollekopf and J. Brummack

Land Disposal

Mechanical Properties of Waste in Low Income Countries

G. Ziehmman

A Decision Making Tool for Dumpsite Rehabilitation in DC's

J. Kurian, S. Esakku, R. Nagendran and C. Visvanathan

Optimising Environmental Improvement at Existing Waste Disposal Sites in Developing Countries

C.K. Vidanaarachchi, S.T.S. Yuen and S. Pilapitiya

Landfills in Developing Countries and Global Warming

A. Robinson, G. Sewell, N. Damodaran, E. David and N. Kalas-Adams

The Development of Low Cost Landfilling Techniques for DC's

M. Caine and M. Pugh
